## Education

**Banasthali Vidyapeeth, Rajasthan**

*B.Tech in Computer Science and Artificial Intelligence*

**CGPA: 9.11 (up to 4th Semester)**

**Kendriya Vidyalaya IIT Kanpur, Uttar Pradesh**

**Senior Secondary (2022):** Passed with 81.2%

**Secondary (2020):** Passed with 82.6%

2023–2027

## Skills

**Programming:** C, Python, Java

**Data Structures & Algorithms**

**Machine Learning**

**Soft Skills:** Leadership, Communication, Time Management, Quick Learner

**Web:** HTML, CSS, JavaScript

**Databases:** SQL, MongoDB

**Tools:** MATLAB, Git, PowerPoint, Canva

## Languages

**English:** Proficient

**Hindi:** Native/Bilingual

## Strengths

- Ability to handle multiple projects efficiently, Quick Learner, Leadership, Teamwork

## Projects

- **LifeLink – Healthcare Management Platform**

**Technologies:** *MongoDB, Express.js, React, Node.js (MERN Stack)*

- Developing a full-stack web application to connect patients, donors, hospitals, NGOs, and administrators.
- Implementing user authentication and role-based access control for different stakeholders.
- Designing RESTful APIs and managing healthcare data using MongoDB.

- **Transportation Ticket Booking System**

**Technologies:** *C, File Handling*

- Developed a console-based system for booking, cancelling, and managing transportation tickets (bus, train, flight).
- Implemented user authentication features for secure login and registration.
- Utilized file handling in C to store and retrieve booking data, ensuring persistence.
- Designed error handling to manage invalid inputs and edge cases.

## Extra-curricular Activities

- Active participation in photography events, capturing moments with creativity and precision.
- Participated in inter-school cultural event.
- Participated in school-level Badminton league.

## Certificates & Achievements

- Participated in Smart India Hackathon.
- Certificate Course in Python Programming – Banasthali Vidyapeeth.
- Python for Data Science, AI and Development – IBM (Coursera).
- Machine Learning Onramp – MATLAB.
- Computer Vision Onramp – MATLAB.
